THIRD AMENDMENT

Dear Sir:

In the EXAMINER'S AMENDMENT dated April 22, 2005, the following changes
should be made:

The listing for claim 20, lines 3-16 should read as follows:

"providing for each station, in communicating with the other station, a preamble
including forward link parameters and reverse link parameters,

providing data for each station to be transmitted to the other station,

providing for each station packets each including a preamble to be transmitted
from the station to the other station and each including data to be transmitted after the preamble,
each preamble including forward link parameters and reverse link parameters,

the forward link parameters for the preamble in each station being provided in accordance with the reverse link parameters previously transmitted to the station in a packet from the other station, and

the reverse link parameters for each preamble in each individual station providing an indication to the other station of the forward link parameters to be provided by the other station in the next transmission of a packet from the other station to the individual station."

Applicant has underlined the word "station" in the deletion to indicate that applicant has added this word. Applicant has made a change in the deletion for claim 20, lines 3-16, as if applicant were filing an amendment.

In the reasons for allowance on page 5 of the EXAMINER'S AMENDMENT, applicant has made a change in the reason for allowing claim 20 such that the reason reads as follows:

"the forward link parameters for the preamble in the first station being provided in accordance with the reverse link parameters previously transmitted to the [second] first station in a packet from the second station", as in claim 20;"

Respectfully submitted,

FULWIDER PATTON LEE & UTECHT, LLP
